

## TECHNICAL EXPERIENCE

STRONG : JavaScript, jQuery, HTML, CSS, Bootstrap, Git

## PROJECTS

**YOUTUBE API** [dmytrokulyk.github.io/YouTube-API/](https://dmytrokulyk.github.io/YouTube-API/) is a simpler way to search for videos on YouTube. Just type what you're looking for, and get your results and nothing but your results.

- Architected the front end views using Twitter **Bootstrap**
- This project was built using **jQuery** and **YouTube's V3 API** to search for embeddable videos.

**TWITTER MODEL** [dmytrokulyk.github.io/YouTube-API/](https://dmytrokulyk.github.io/YouTube-API/) an application based on real time TWITTER data allows useful visualization to client.

- Architected the front end views using Twitter **Bootstrap**
- This project was built using **JavaScript**, **JSON**, **jQuery** to print out randomly made messages.

**To Do List** <https://dmytrokulyk.github.io/To-Do-List/> an application allows you to add new tasks to the list, edit you list, mark you tasks like completed and delete them.

- Architected the front end views using Twitter **Bootstrap**
- This project was built using **JavaScript**, **HTML5**, **CSS3**.

**Shell Game** <https://dmytrokulyk.github.io/Shell-Game/> is a game, where three or more identical containers are placed face-down on a surface. A small ball is placed beneath one of these containers so that it cannot be seen, and they are then shuffled by the operator in plain view. One player is invited to bet on which container holds the ball.

- Architected the front end views using Twitter **Bootstrap**
- This project was built using **jQuery**, **HTML5**, **CSS3**.

## PERSONAL

I love long walks to the fridge, and when the fridge returns a 404, I can be found in the kitchen attempting to be the next Master Chef.
